Portrait LCRDM MK2

Sleek aluminum enclosures house proprietary carbon fiber woofers and Vifa XT Super Audio Tweeters to produce a versatile audio system that represents the state of the art in loudspeaker design. The Portrait is an incredible blend of technology and artistry. The amazing sound quality produced by these loudspeakers will fill a room and create an emotional experience that is truly amazing.

Attached to the TV with custom designer grilles or mounted flush in the wall, the speakers will seamlessly blend into any décor. Whether the system is exclusively designed to be a high-performance home theater, a dedicated music system or a careful integration of both, the Portrait LCR DM Mk2 is unrivaled by conventional or unconventional speakers at or above their price.
